Frontend: React.js, Next.js, Tailwind CSS, Three.js, Ant Design (AntD), Redux Toolkit

Backend: Node.js, Express.js, MongoDB, Prisma

Core Concepts: RESTful APIs, RBAC, Authentication & Authorization, Real-Time Systems

DevOps & Security: Docker, VPS Deployment, Nginx, PM2

Tools: Git, GitHub, Postman, Firebase, Figma

WORK EXPERIENCE

Full Stack Developer — Pixelora Studio (A Concern of Betopia Group) | 2025–Present

- Built and maintained production-ready MERN applications for international clients
- Implemented secure authentication and role-based access control (JWT & RBAC)
- Developed scalable RESTful APIs and integrated frontend-backend workflows
- Optimized application performance, responsiveness, and user experience

PROJECT EXPERIENCE

AcctEmpire | <https://www.acctempire.com/>

A full-stack peer-to-peer digital marketplace platform designed for secure buying and selling of digital assets. Features custom authentication (JWT + RBAC), real-time chat system, and advanced admin dashboard with user blocking, support system, and dynamic currency control (Naira to USD).

- Custom authentication with JWT and RBAC
- Live chat system
- Admin dashboard: user blocking, support system, currency control (Naira to USD rate management)

My Local Pro | <https://mylocalpro.com.au/>

A service marketplace platform connecting customers with trusted local professionals through a responsive and user-friendly web application.

- Custom authentication and user access management
- Service listing & category management
- Customer Inquiry & Lead Management
- RESTful API integration

Learning Management System (LMS) | <https://lms-frontend-gray-ten.vercel.app/>

A modern Learning Management System designed for online education with role-based dashboards, course management, and digital learning resources. Supports course publishing, assignments, quizzes, and file-based learning materials.

- Custom authentication with role-based dashboards
- SCORM package upload and course content management
- Student enrollment, progress tracking, and REST API integration

EDUCATION

Diploma in Computer Science & Technology — Daffodil Polytechnic Institute (Present)
